

For You
 & Your
 Environment

Home, Sweet Home

means a place of pleasure, wellness &. regeneration.

- Every home should **KEEP** peoples **HEALTH!**

The “civilized” world offer a lot of easy & “cheap” ways of “fast-fun” without any real satisfaction.

But **what’s cheap** & what’s expensive?

If you are hungry, would you spend 10,-€ for a healthy meal or do you like to save 2,-€ by choosing nice tasting “sh...”, sorry, **toxic** food?

**Neurodermitis
 Asthma
 and much more
 means pain and a
 lot of money
 to reduce pain**

HEALTH is the most beautiful thing, a house should keep beauty and HEALTH

- **MOULD is a main-source of allergies!**
- More than **70%** of **IRISH** houses are full of **MOULD!**
- Especial the **NEW built houses in Ireland & GB**, timber AND stone, are **full of building-mistakes**, which will cause **MOULD, pain** and more.

There is **NO** question of cheap or expensive, it is a question of good will or ignorance,
 - to understand it better: it is a decision of health or pain, life or dead!

PAIN change peoples mind soon!

“Where’s a will – there’s a way!”, my grandfather said. For myself I think, we don’t need terrorist or wars, because the

“civilized” world is going to die out by its own decision.

But don’t forget: **pain will cause costs** too!

We believe, it is better to spend money for a house of health & a real sweet home, then spending money to reduce sickness & pain!

Let’s do our the best – everywhere & every time – at least a little bit!
